

CALL FOR ABSTRACT

THE AGA KHAN UNIVERSITY
Institute for Educational Development in East Africa

NATIONAL EDUCATION CONFERENCE, KENYA

Maximizing Educational Change: Research, Policy, Leadership, Technology and Curriculum

April 15 - 17, 2019

Safari Park Hotel, Nairobi

There has been a myriad of changes in the education sector in Kenya. Research and practice provide evidence that these reforms have consistently not achieved desired outcomes. Indeed, if Kenya is to achieve Vision 2030, which aims to transform Kenya into a newly industrializing, middle-income country providing a high quality of life to all its citizens in a clean and secure environment, any reform in education must be effective. This conference provides a forum for stakeholder dialogue to optimize change through perspectives on reforms that will contribute to the education sector realizing its full potential.

The conference will focus on maximizing change in education that will provide every Kenyan learner with world-class standards in the skills and knowledge that they need and deserve to thrive in the 21st century.

Theme

Maximizing Educational Change: Research, Policy, Leadership, Technology and Curriculum

Sub Themes

1. Research that improves educational practice
2. Policy that drives educational reforms
3. Leadership and governance in an era of educational change
4. Technology and innovations towards educational change
5. Re-thinking curriculum
6. Equity and equality for inclusive education

Presentation

Academic paper, workshop, graduate seminar, poster
